WHEN WILL MY DEPOSIT BECOME AVAILABLE?

Mobile deposits will become available for your use in accordance with our Funds Availability Policy. The full value or \$200, whichever is less, will be available the next business day. Any remaining amount will be available when the hold period expires. Learn more about when your deposits become available.

WHY ARE THE FUNDS FROM MY MOBILE DEPOSIT ON HOLD?

Holds are placed to help protect both you and the bank from losses that could occur when a deposited item is returned unpaid. In certain instances, it is possible that a hold will be placed at the time you submit a deposit or after you have made a deposit. A hold means that, although we have received your check for deposit, you will not be able to use the funds until the hold period has expired. Hold periods are typically two to five business days but may extend longer in unusual circumstances. If a hold is placed on your deposit, you will receive a written notice from us. For additional information about holds, please refer to our Funds Availability Policy.

HOW DO I ENDORSE MY CHECKS FOR MOBILE DEPOSIT?

Simply sign your name or use an official company stamp on the back of your check. Please write **“For Tejas Bank Mobile Deposit Only”** below your signature. Any items not properly endorsed will not be accepted via mobile deposit.

HOW WILL I KNOW THAT MY MOBILE DEPOSIT IS RECEIVED?

After we successfully receive your deposit, you will receive a deposit confirmation message on the screen. You will also receive a confirmation email from deposit@mytejasbank.com.

HOW CAN I ENSURE THAT THE CHECK IMAGES I TAKE WILL BE HIGH QUALITY?

To ensure a high quality check image, your smartphone or tablet must have a built-in camera that is at least 2-megapixels. When capturing the image, please:

- Place check on flat, dark-colored surface in a well-lit area.
- Position device's camera over check to minimize angles, glare, and shadows.
- Align the check with the four corners of the guide image, and not the corners of your screen.
- Avoid objects and clutter around the check.
- Hold the device steady and the picture will be taken for you.

WHAT SHOULD I DO WITH THE CHECK AFTER SUBMITTING IT VIA MOBILE DEPOSIT?

For your protection and verification purposes, you should write "Electronically Presented on [date]" across the top of the check and securely store it for 15 days. After this time, you can mark the check "VOID" and destroy it.

ARE CHECK IMAGES SAVED ON MY DEVICE?

Check images are never saved on your smartphone or tablet. The images are securely transmitted and digitally stored at the bank in accordance with the Check 21 Act, which allows financial institutions to process checks electronically.

CAN I DEPOSIT MORE THAN ONE CHECK AT A TIME?

You can deposit multiple checks in the same Mobile Banking session, however, you may only photograph and submit one check at a time. Deposit limits and other restrictions may apply.

WHAT IF I SUBMIT A DEPOSIT FOR THE WRONG AMOUNT?

All deposits are subject to verification. In the event an adjustment is necessary, we'll notify you in writing.
